

MEMO

NEW JERSEY STATE DEPARTMENT OF ENVIRONMENTAL PROTECTION

TO Bayonne Barrel and Drum file thru Steve Carfora
FROM Tom Downey *TD* DATE 5/16/82
SUBJECT 3/31/82 and 5/11/82 visits

On 3/31/82 at 1045 hours, I stopped on the drive-in access road just south of the Bayonne Barrel and Drum Company. From this point, outside of the fence, I observed a waste pile that I had noted on an investigation at the company on 3/3/81. Pile was partly covered with plastic cover. It appeared as though wind had blown some of the cover from pile. Two photographs were taken of pile.

On 5/11/82 while passing by Bayonne Barrel and Drum, I again noted that waste pile remained, still partly covered. It appeared as if more material had been added to pile.
